## **Myths: Tales of the Greek and Roman Gods**

*By Lucia Impelluso*

*Abrams, \$19.95, 780 pages*

When you first pick up this book, you will more than likely be shocked at how heavy it feels. But, a quick glance through the book will show you why. Jam-packed with hundreds of beautiful images and a small story accompanying each, this book tracks the mythology starting from the Earth's creation all the way to the legendary Trojan War. From ancient murals, classic sculptures, and works from some of the greats, like Da Vinci, Michelangelo, and Gustav Klimt, accompanied by great literature works, such as the *Odyssey* and the *Aeneid*, Impelluso does a wonderful job at bringing all of the classic stories of monsters, gods, and heroes together in a vibrant and rich book.

Perfect for the holidays when the family wants to get together, sit in front of a roaring fire, drink hot chocolate, and let Lucia's amazing book take them to far away lands.
